

## D Multi Net Game

### **Key Points:**

Implement any rule modification like types or number of passes, how many goals one player can score, etc.

### **Description:**

1. Place nets around the rink and allow space for players to skate behind.
2. Divide the players up into equal teams at each net.
3. Use one puck or if multiple pucks leave them in the net after a goal.
4. Keep score.
5. Players defend their own net and can score on all other nets.

\*If the skill level is uneven rule is all must score before you can score again.
